Unlock Your Hidden Potential

With the power of Business Intelligence

LOST IN DATA?

Confronted with new demands brought on by changing technology, increased competition and distributed staff, many organizations are turning to business intelligence (BI) solutions to improve their business dexterity.

The BI solutions offered by Soal Technologies, LLC, allow you to not only gather data in a coherent and timely manner, but helps you present it directly to senior management involved in critical decision making, allowing them to collaborate and take actions. We have the capability to integrate both Microsoft and IBM Business Intelligence solutions directly on to your existing technology investments. This results in cost savings and enables the change leadership to become proactive rather than reactive in their response to changing industry dynamics. We are a certified Microsoft and IBM Partner and offer a full Microsoft suite of BI technologies, as well as IBM Cognos Business Intelligence that comes with a complete range of BI capabilities on a single, service-oriented architecture (SOA).

Our Business Intelligence Solutions

- Free initial consultation to assess your business strength and needs.
- Planning sessions with Soal to design a BI solution to fit your needs
- A report of your requirements with a cost estimate
- Implementation of BI
- Ongoing technology training and support
- Enhancement services in future

BENEFITS OF BI

Increased Organizational Effectiveness

- Create and manage information through an integrated system that includes core business productivity features
- Ensure that decision makers have instant access to the information they need—and can eliminate data that is of little value to them
- Make it easy to collect, manage and share information throughout your company
- Take action with a common context for decision-making across every department.
- Know where to cut cost as well as gain understanding of new opportunities of growth with intelligent measurement systems

Increased IT Efficiency at a Lower Cost

- Rely on your existing IT resources and skill sets with our integrated BI solutions for faster implementation and lower total cost of ownership
- Create dynamic, interactive and transparent system for analyzing and reporting
- Set targets, see results and understand what drives the numbers
- Identify and analyze opportunities, trends, benefits and threats
- Save time by tightly integrating information from multiple sources and giving decision makers real-time access

"There's something absolutely magical that happens when business intelligence works. When an end user with a question gains the insight they need to move forward, business moves forward and people are more effective in their jobs."

—Ted Kummert, Senior Vice President, Microsoft Business Platform Division

SOAL Technologies, LLC.

Hiring the Best
With Soal Technology's IT Staffing Solutions

SOLUTIONS THAT WORK

In the uncertain business climate of today, hiring and retaining skilled IT staff is key to your businesses' success. Soal Technology, LLC is one of the leading providers of IT professionals on temporary as well as full-time basis. We offer our clients reliable and affordable IT staffing solutions across a wide range of industries that allow them to harness the power of technology aligned with their business objectives.

COMPETENT STAFF

Our competent IT professionals, many of whom are multilingual, are experienced in dealing with a wide array of hardware and software environments and can understand and respond in a timely manner to your technology needs. We adhere to tough hiring standards and our quality hiring process means that we recruit only the best, thoroughly-vetted and screened staff before they show up at your doorstep. Whether the assignments given to our professionals are short- or long-term, time sensitive or responding to day-to-day challenges, they are met in an efficient, proactive and skilled way, meeting or exceeding requirements.

OUR COMMITMENT

At Soal, we are committed to building a long-lasting relationship with you. Therefore we focus on your IT environment, requirements and expectations during the initial consultations, and then respond with the right skill set to meet the goals of your project. We pride ourselves on delivering excellent IT staff augmentation services. This makes us partners in your success.

Our Suite of Staffing Solutions

- Full time or permanent staffing
- Long- or short-term skilled consultants or freelancers
- Staff augmentation for specific projects
- Temp to hire
- Offshore hiring
- Complete hiring on formation of company
- Technical support for special scenarios such as hardware or software upgrades, installations, enhancements, conversions, gaps caused by layoffs or turnovers, etc.
